TECHNICAL SUMMARY

Aspiring Software Engineer and BCA student with a deep interest in Linux environments, system configuration, and web technologies. Hands-on experience managing custom Arch Linux distributions and automating environments using Git and Bash. Proven track record of high-attention data verification and structured research in professional settings. Currently expanding technical capabilities into Python and SQL backend development.

TECHNICAL SKILLS

- **Operating Systems & Tools:** Linux (Arch Linux, Hyprland, Waybar), Git, GitHub, Bash Scripting (Basic)
- **Web Technologies:** HTML5, CSS3 (Mobile-First Design, Responsive Web Design)
- **Languages (Familiar / Currently Learning):** Python, C++, SQL

EDUCATION

- **Bachelor of Computer Applications (BCA)** | K.P.B. Hinduja College of Commerce, Mumbai
 - *Affiliated with Yashwantrao Chavan Maharashtra Open University* | Expected Graduation: 2028
- **Higher Secondary Certificate (HSC)** | St. Rocks Jr. College, Mumbai
 - *Score: 69% | Graduated: 2025*

PROJECTS

Custom Arch Linux Environment (myArchy) | *Bash, Hyprland, Git*

- Developed and maintain a public repository featuring custom install scripts and package configurations for a modular Arch Linux setup.
- Engineered custom UI/UX elements using Hyprland window manager and Waybar configurations.
- Utilized Git for version control to ensure system configurations are fully reproducible and trackable across different hardware environments.

Responsive Portfolio Website | *HTML5, CSS3, GitHub Pages*

- Designed and deployed a personal portfolio website utilizing a mobile-first design strategy to ensure cross-device compatibility.
- Optimized asset loading and clean code structure for fast rendering performance.
- Hosted and maintained the live deployment via GitHub Pages.

PROFESSIONAL EXPERIENCE

Law Cell Advocates (Mumbai) | *Paralegal Assistant (Part-Time)* | Mar 2025 – Jun 2025

- **Data Integrity:** Conducted rigorous title searches and verified property ownership records, maintaining zero-error logs for legal compliance.
- **Information Architecture:** Audited and organized historical land records, structuring document retrieval systems to accelerate case research for senior attorneys.
- **Analytical Research:** Performed deep-dive document analysis on complex historical texts to extract actionable data points for active legal cases.

LANGUAGES

- English, Hindi, Gujarati
